September 21, 2019

Dear Ms. Poprilo,

Immunization Review for Student [REDACTED]

I was asked to review immunization exemption form. It was filled out by Dr. Trifeletti on 8/27/19. It stated he had an autoimmune encephalopathy from a thyroid issue and was receiving sporadic steroids. I phoned Dr. Triffeletti on 9/13/19 and I was informed that [REDACTED] is no longer his care and he retracts the form he signed. I notified the nurse last week and requested an update exemption form be submitted with appropriate documentation. Steroids can be a short term reason to delay an immunization, Usually the only reason to avoid other vaccines would be in the case of unstable seizures. I cannot recommend approval off this Exemption.

Sincerely,

Dr. Jack Geffken, School Physician
